We've seen families recently focus on incorporating scent into the wedding. They say it's important to them to have a fragrance that no matter where they are in the world or how much crazy is going on, that scent will bring them back to their wedding day. How precious is that! (bout. photo of rosemary)." - Harvey

"Grandmillenails focus on the future meaningful elements from the past. We recommend for them to incorporate family photos of loved who's who could not be there. Vintage frames surrounded by candlelight and soften with greenery to tie into the event."

"Vintage details are easy to achieve through the bridal attire. Vintage family jewelry or estate jewelry can be stunning! By pairing vintage details, brides will opt for a bold stated bouquet to offset the formalness. We just love this new trend!" - Harvey
